

Following government advice on Covid-19, the MCF will suspend all activity

All activity including coaching, training, practicing and competitive events plus all track visits and educational seminars will be suspended from 17th March until 14th April subject to continued review.

The decision has been taken following government advice and consultation with other governing bodies in the interests of competitors, coaches, officials, volunteers, supporters and the wider community.

Where possible, individuals are encouraged to maintain their own personal fitness and keep active during this time, while following government guidelines about safe distance and safe exercise environments.

The MCF will continue to review and monitor government advice and will provide updates as and when they become available in the coming weeks.

At a really difficult time its hugely important that as a nation we take a responsible approach to the issues we face. And whilst the sport can go on hold, endangering the lives of our friends and families can't.

Thank you for your understanding and co-operation during this unprecedented situation.

Look after yourselves and hopefully we will be back in action soon.

Kind Regards
