www.hampshire-motocross-club.co.uk

No marshals are required

The club uses race result transponders that can be purchased or hired through the club, they are priced at £70 and require no charging, and will last for approximately 6 years.
Please note that my laps transponders will not work with our system.
A rider must be a club member to score championship points.

HAMPSHIRE MOTOCROSS CLUB

2018 Season - Rules and Regulations

Points System

Each race for all classes uses the same points system based on the finishing position as follows: 1st place gets 45 points, 2nd gets 42, 3rd gets 39, 36, 33, 30, 27, 25, 23, 21, 20, 19, 18, 17, 16 down to one point

Veterans Championship

The Vets Championship is open to all solo riders over the age of 40 on any class of machine. The Vets championship runs separately to the solo main and will be in the form of a timed practise and 3-legged motocross at each round with points awarded per race to all finishers. Championship points are awarded from each individual race rather than the overall position. Should two riders finish the event with equal points it is the third race result which will determine the overall finishing position.

Solo Finals

A practice and timed qualification session will be run in the morning to determine which class a rider will race, A or B group.

There are three solo finals per class (A and B) run on the day. Championship points are awarded from each individual race rather than the overall position. Should two riders finish the event with equal points it is the third race result which will determine the overall finishing position.

Solo Main Championship

Only solo riders who qualify for the A-Group score points in the Main Championship and points are awarded per race, based on the rider's finishing position.

Solo Clubman Championship

The solo Clubman championship is open to all solo riders with the following exclusions; Any rider who has finished in the top 12 of the solo main championship in the previous season is excluded □ Last season's Clubman champion is excluded

The top clubman finisher in the A-Group is awarded a points total based on the total number of clubman riders at the meeting. For example, if there are 100 clubman riders the top finisher is awarded 100 points. The next clubman finisher is awarded 99 and then in single increments down to the last finisher who will receive 1 point. Therefore, the last clubman finisher in the A-Group will receive 1 point more than the winner of B-Group.

Championship points are awarded on each individual race rather than the overall positions.

Rookie and 85cc Championships

The Rookie and 85cc championships consist of a timed practise and 3 legged motocross at each round. Each rider is awarded championship points per race. Should two riders finish the three races with equal points it is the third race result which will determine the overall finishing position.
